

Requirements of Membership

To become a member of the Canadian Hydronics Council, an important portion of your business must be the installation and sale of hydronic (hot water) heating systems. Additionally, you must have a valid trade qualifications certificate, a valid provincial fuel licence and must be employed by a company with a valid municipal business licence. Finally, you must have been in business for a reasonable time as determined by the council.

Please confirm and provide a copy of the following*

- I perform the installation and sale of hydronic (hot water) heating systems.
- I have a valid trade qualifications certificate.*
- I have a provincial fuel licence.*
- I am employed by a company with a valid municipal business licence.*
- I (or my company) have been in business for ____ years.
- I agree to abide by CHC's code of ethics.
- I certify the information provided is true and accurate.

Signature: _____

Date: _____

Please note: The membership year runs from May 1 to April 30. Your membership is based upon the approval of the council. Your application will be considered at the next council meeting and your acceptance or denial will be communicated in writing shortly thereafter.

The Canadian Hydronics Council (CHC), founded in 1963, is a council within the Canadian Institute of Plumbing and Heating. Its mission is to promote responsible growth and contribute to the prosperity of the members and their customers in the hydronic heating industry.

Hydronics Installer Membership Information and Application

What's in it for you?

For a yearly investment of **\$99**, you will receive the following benefits from the Council:

- *Your name listed* on the Ultimate Comfort Web site assisting consumers in locating installers in their areas.
- *The opportunity* to express your point of view and goals and become active at Canadian Hydronics Council functions.
- *Savings* on CHC-delivered hydronics training including the new two-day "Introduction to Hydronics" course.
- *Discounts on hydronics books, technical and marketing materials* sold by CHC including CSA B214 and its best practices guide.
- *Member-only hydronics events* including networking lunches, speaker series and "wethead" forums.
- *Periodic CHC updates* featuring the most current news in hydronics.
- *Representation* to local, provincial and federal government decision-makers through CHC lobbying to recognize modern hot water heating as the best heating method.
- *Regions allow more involvement* by providing the opportunity to meet associates and a vehicle to develop important industry alliances. CHC operates and liaises with other hydronics groups in British Columbia, Calgary, Edmonton, Saskatchewan, Manitoba, Ontario, Quebec, Atlantic Canada and Newfoundland.
- *Access to hydronics expertise and know-how* through CHC's technical committees.
- *Access to information* regarding the latest in new products and technologies, market data, and code changes.

FAX STATEMENT

For those applicants replying by fax, please ensure you complete and fax back the "Requirements of Membership" section as well.

I am not a Hydronics Installer, but I am a hydronics specialist (designer, training professional, engineer, system fabricator, or specialty distributor) and wish to learn more about membership within the Canadian Institute of Plumbing and Heating.
